

Psychologically Safe Leader Assessment

The assessment requires an average of 20 minutes to complete. We recommend completing it in one sitting, free of distractions and without the input of others. This focused time helps to ensure more accurate reporting.

Please answer as objectively as you can, based on what you currently do and/or how you would likely approach a situation. Remember that you may never have been authorized or asked to implement some of these strategies and the intent is to take a snapshot of current practices to allow identification of alternative strategies that may help improve psychologically safe leadership.

Demographics are collected for research purposes and will be kept confidential by the independent researchers, with data only being presented in aggregate form without identifying information.

Choose 5 - Always, only if you consistently use the strategy with all employees.

Choose 1 - Never, only if you never use the strategy.
